  - Prevent evaporation, saving 8-10,000 litres of water a month in summer
  - Help keep out leaves and dirt
  - Reduce salt and chemical use

Quality you can trust,  
Service you can rely on

# When it's blazing hot, a Daisy SolarScreen™ cover keeps your pool coool

Daisy's revolutionary new **SolarScreen™** gives you all the great Daisy Pool Cover benefits:

- Cut evaporation by 97% – saving between 8 and 10,000 litres of water a month in summer
- Help keep out leaves and dirt
- Reduce salt and chemical use by up to 50%

## Without warming the water!

**Daisy SolarScreen™** Pool Covers are totally opaque, so they don't let any solar energy into your pool water to heat it up.

**SolarScreen™** covers won't heat up themselves either, and Daisy's unique **UltraDome™** bubble material is such a highly effective insulator that your pool water won't warm up like it will in an uncovered pool during the day – no matter how much the temperature soars.

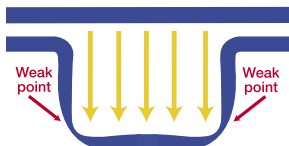

Leave your **Daisy SolarScreen™** Pool Cover on overnight, and don't take it off – until you're ready to jump into a cooler pool for a refreshing swim.

## Daisy UltraDome™ durability

**SolarScreen™** Pool Covers are manufactured from Daisy's exclusive **UltraDome™** bubble material so they're made stronger to last longer.

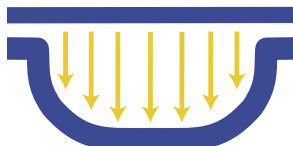

**Daisy UltraDome™** technology eliminates weak points to give you a tougher pool cover.

### Stretched old style bubble shape

The weak points disintegrate and you are left with no bubble

### Thicker and Stronger UltraDome™ Bubble Shape

The bubble is the same thickness throughout for greater strength and longer life

It's also made from supertoughened polyethylene with the maximum antioxidants, tougheners and UV inhibitors to effectively resist damage by sun, salt and chemicals.

**SolarScreen™** Pool Covers material is a full 500 microns, and they carry an 8 year pro-rata warranty.

## For maximum convenience, add a Daisy Roller System

**Daisy UltraDome™** bubble technology makes our **SolarScreen™** Pool Covers lighter and easier to handle than many other insulating pool covers.

However, for maximum ease-of-use, we recommend a top-quality Daisy Roller System to allow one person to fit or remove the cover in around 30 seconds.

There's a system to suit every pool and every budget, and they all carry a 10 year pro-rata warranty.
